

I'm Robert Johnston, County Judge, and I want to talk to you about a new order that deals with the number of people going to our local stores to shop. We want you to continue supporting our local vendors but we are requiring no more than one family member enter the store to shop for the whole family. By doing this, we are reducing the possibility of exposure to the COVID-19 virus by 50% if not more. We understand that there will be situations such as single parents who have to bring the kids with them, but if it's possible, please try and find someone to stay with them while you go to the store. There will be store employees at the entrance to our stores to enforce this order so please make it easy on them and not make them have to tell you to return to the car. It will take all of us working together to get through this crisis, but I know that with your cooperation, we will help slow the spread of this horrific virus.
